

GHOST DAY
APPLIED MACHINE LEARNING
CONFERENCE

Certificate of Participation

This is to certify that

Hubert Ruczyński

has participated in

GHOST Day: Applied Machine Learning Conference 2022
24-26 March 2022, Poznan University of Technology, Poland

as a **Speaker** of a contributed talk entitled:

FairPAN - Achieving fairness through neural networks

GHOST Day: AMLC is a space for exchanging experiences between machine learning practitioners and an environment for updating knowledge in the rapidly changing area of data analysis. The 2022 edition hosted presentations of 42 speakers, including recognized scientists publishing at top-tier global conferences such as NeurIPS or ICML and numerous experts from companies constructing ML-based products, like Allegro, Amazon, deepsense.ai, Google, Intel, Meta AI, Pearson, ReSpo.Vision or Tooploox. This edition was held under the honorary patronage of the Ministry of Economic Development and Technology, Polish AI Society (PSSI), Marshal of the Wielkopolska Region, and the Mayor of Poznań. The full information about the event can be found at ghostday.pl
